## PROFESSIONAL SUMMARY

---

Skilled worker with proven ability to perform a variety of tasks, including troubleshooting, system integrations, full-stack application on architecture microservices and monolithic. Ability to work independently and within teams in a fast-paced environment.

## TECHNICAL SKILLS

---

- Language: Java, Java EE, Spring, SpringBoot
- Web: Angular, React, Javascript, Typescript, CSS, HTML
- Experience in databases like:
  - o Relational Databases: Oracle, MySQL, PostgreSQL
  - o NoSQL: MongoDB.
- Tools: Docker, Kubernetes, Jenkins (CI/CD), Git
- Others: Linux, Maven, Gradle, Hibernate, JDBC, SOAP, Software Development Life Cycle (SDLC), XML, JSON, Rest
- Server Containers: Jboss, Wildfly, Glassfish, WebLogic.

## EXPERIENCE

---

### *IT Software Engineering IV 04/2011 – 07/2022*

#### *Claro – Telecommunication*

- Instead of developing new requirements in the old System, we decided to upgrade them to a new version using Java/Java EE, Hibernate and a better UX/UI keeping the original deadline with all new requirements.
- Implemented a hierarchy tree to guide the user to create a fixed structure on address level in Java, HTML/JSF.
- Integration 3er Party System from different providers utilizing **Java EE** (SOAP Web Services and **Oracle SOA Suite** (BPEL/ESB).
- Design and Implement microservices in Spring Boot using TDD to automatize process cancellation in OMS (Order Management System), reducing the backlog of 500+ orders automatically.
- Integrate the system to send push notifications to other systems when the user CREATE, DELETE, and UPDATE to keep data synced with other systems.
- Implementation of a web service (SOAP) tool with the SMS Server to let other apps send SMS in case of failure of the system.

- Migration Spring Boot fat jar microservices to Docker - Kubernetes.
- Troubleshoot, debug and upgrade existing systems.
- Document and maintain software functionality

## **EDUCATION**

---

***Post-Graduate Diploma:*** Mobile Application Design and Development  
Lambton College (Toronto) – 09/2022- Present

***Bachelor Degree:*** Systems and Computer Engineering  
O&M University – 04/2001- 12/2005

## **CERTIFICATIONS:**

- Oracle Certified Expert, Java EE6 Enterprise JavaBeans Developer. (Enterprise Software).
- Oracle Certified Professional, Java SE 6 Programmer (Java Developer).

## **ADDITIONAL**

### **References:**

References will be made available upon request.

### **Training:**

- Scrum, Oracle SOA Suite 11g: Build Composite Applications
- SOA Adoption and Architecture Fundamentals
- Developing Web Apps with ArcGIS API for JavaScript
- React
- Microservices Architecture
- Kubernetes for Developer
- AWS

### **Language:**

- Spanish - Native
- English – Advanced
